

## **Information for your Your booking for Stella**

To get to Stella please use the post code PH152JQ. Drive in to the heart of Dull. Past a row of cottages, when you see the large stone Church you make Right turn just before the grave yard gates.

You will see a sign that says 'The Tabernacle' Drive in 1st gear up our steep drive, passing a modern white house on the right called The Heights' when you get to the top, drive straight on through the gates marked 'The Tabernacle' park up in front of the green Tabernacle, please leave the space closest tot eh Tabernacle for the main house.

At the end of the car park turn left down a small gravel path. You will find Stella behind a wooden fence parallel to where you have parked your car.

You can find the exact location using this link on google maps:  
<https://goo.gl/maps/EzasFDZXggZ13BUo7>

To contact us WhatsApp us on 0044 7717748708 or 00447760260137

Check in time is 3pm  
Check out time is 11am

We do have a lot to prepare before our next guests arrive so we ask that guests are ready to leave promptly at these times unless otherwise arranged with us.

We offer guests a contactless check-in. This means our guests can arrive at Stella and safely check in without unnecessary contact with another person(s). Rest assured, the team are on hand if you have any problems, just get in touch and we'll be there to help.

### **Parking area**

Our carpark a shared space, it is for Stella and The Tabernacle, please park logically so that everyone has space to get in and out. We advise that you drive in and turn your car so the it's easy to leave.

## **Snow**

In the event of snow or extreme ice during the winter; if you do not have a 4WD, please leave you car at the bottom of our drive in the parking bay on the left hand side, just after you turn up our drive. There is a sign that says 'Tabernacle Parking'. This land belongs to us.

Take great care on the paths and around the Hottub it can get very slippery during the winter.

The Wifi Password is '**airstream**'  
The wifi network is also airstream

## **Hottub use**

The hot tub lid slides off, we advise that you allow it to rest to the left of the tub when you use it.

**After you have finished please replace the Hottub lid or all the heat will be waisted.**

Please have a shower before you get in the tub and remove all heavy makeup and fake tan. If you do not the Ph of the water will be affected and we can not guarantee that the water will stay clear.

Please not use our towels to wipe heavy foundation or fake tan off your body. If towels are left with stains from makeup or mud you will be charged to replace towels that are stained.

**By using the Hottub you are automatically agreeing to our Hottub disclaimer, which can be found at the bottom of this PDF and in the terms and conditions section on our website, please read it for your own safety. We do not claim any responsibility for guests while in or around the hot tub area.**

## **Pergola Area**

This is your private zone. We have done our best to make it rain proof. However it is Scotland and the rain does not always fall from the sky the way we want it to...sometimes it is horizontal. In the event of never ending horizontal rain, the covers of the outside bed area might be a little damp. We call this an act of God. During the winter months we remove the mattresses to stop them from spoiling. The fairy light and festoon lights will magically illuminate this area. **Please close the lights before bed out of respect for the neighbours**

## **Parties**

**We have a strict no party policy at all our spaces. We ask that our guests respect the tranquility of the area and the neighbours by not playing loud music outside or by being super loud at anti social hours in the hot tub.**

## **Wood**

There is a fire pit that you can use, it can be very useful for the midges as well.

Wood is charged by the bag, you can find the bags in the trunk at the back of stella. If you use the bags we ask you pay via the airbnb Resolution Centre if booking via airbnb after your stay. If you have booked via the website we will invoice you after your stay. That way you only pay for what you use. If you ever need more wood please send us a whatapp and we will arrange for your wood box to be topped up.

Please be very careful when building fires. And do not leave them unattended.

Hard wood per bag - £8 Kindling per bag - £5

### **Lowering the Booth Table**

The seating booth becomes a double bed when needed. This is a two person job

To do this you need to look at the telescopic legs and open all 4 levers. Once open apply pressure on the top of the table.

Lower it and re-tighten the levers to hold it in place (please do not over tighten the levers)

The seating below the long window contains the extra cushions that create the double bed.

Please store excess back cushions in this locker not on the floor.

If you have booked the space for 4 people then your extra bedding will be on the main bed.

### **Locking the Door**

- Stella door has a combination code.
- If you make a mistake just press C to clear it and start again
- Just pull the door to lock it
- When it rains we ask that you please shut the door. Due to the curvature of Stella the rain will fall inside when the door is left open.

## **Personal safe**

Under the kitchen sink we have added a Safe (not that you need one as it is extremely safe here) the code is 23232323.

The village is very safe. Mostly we all look out for each other, and to date we have never had a problem with theft.

## **Your Award winning Super King Mattress**

We did a lot of research in to your bed!!! When we travel there have been too many times that we have woken up in a beautiful place having had a terrible night sleep.

It was one of the most, if not the most important thing for us to offer you a fantastic bed and bedding so that you leave Stella rested and happy

Your mattress is a Super Kingsize EMMA mattress. It won the WHICH best mattress award in 2018.

Your bedding is 100% pure cotton

There is also built in storage for all your clothes in the draws.

## **Heating**

There is underfloor heating in Stella, we will set this to a constant ambient heat so there is no need to play with the control panel for this; which is the white box above the toaster.

If the space is too hot or not hot enough, then you can play with the temperature. You will find the same looking thermostat by the bed. Please ask if you need any help.

We have noticed that guests have a tendency to leave the door open when in the Hottub. If your heating is on please close the door!

## **Water**

Stella's water system is powered by a pump. It is there for normal to hear the pump when you turn on a tap. The sound will go when taps or shower are not in use.

## **Hot water**

Stella has constant hot water.

## **The Shower**

Please note every part of Stella is bespoke, the shower door can drip if opened very quickly after a shower. It's better to open it in, rather than out.

## **The Loo**

Please do not flush anything but loo Roll down the Loo. Please never add bleach or your own detergents in to our septic system. It is a private ecological system and can be damaged by harsh chemicals.

## **Lighting indoors**

Stella has a main lighting switch to the left of the door

Ambient Night lights - the groovy purple light switch, is found beside the radiator on the end of the kitchen unit.

Bedside lights - see switch on the light fixture

There is a wall dimmer on the left hand side wall at the end of the bed for the bedroom end lights

Bathroom lights - find pull switch hanging as you enter.

## **Lighting outdoors**

Outside airstream lights - the switch is to the right of the door, inside

### **Hot-tub pergola lighting -**

please find the outside ground plug to the right of the entrance to the airstream, turn on the right switch on to activate festoon and fairy lights. They must be turned off before bed out of respect to our neighbours.

**Please Never turn off the Hot Tub by accident!**

## **Our Garden**

The flower bed in front of the airstream has a big bush of lemon balm on the left hand side, if you want to make tea you may pick some

The raised bed in front of the hot tub is mostly full of wild rocket, again if you would like some please help yourself.

Our garden is 100% organic no nasty pesticides are used.

We have designed the garden so our two amazing spaces have total privacy. We ask that you respect the Tabernacles privacy and do not wonder in to the garden around the main house. Please enjoy the garden in front and below Stella.

Occasionally, Dave the strimmer man will arrive to help cut the grass around Stella. Its a very annoying sound.... I apologise in advance if this happens while you stay...we will do everything we can to time it so that our guests are not around when the lovely Dave is doing his thing.

Your welcome to wonder down the steps in front of your space to see our meadow. It was planted in the spring of 2018. This is a space that all our guests are welcome to use. Down there you will find our spring.

Your also welcome to pick apples in the autumn months of the trees

### **Our Amazing Spring ‘Little Yew’**

If you wander down the garden to our wildflower meadow, just before it you will see a Rowan tree covered in red berries in the autumn. Just beside this is our spring.

The spring was the original source of water for the village of Dull and was described in the 1800's as have miraculous qualities. From the period of 2016-2019 we worked very hard to level the area around the spring to create a wild flower meadow to attract and encourage the wildlife to thrive at The Tabernacle. We also uncovered an ancient broken drainage system that was causing the lower garden to be water logged. It took us two years to open up the land, allowing it to drain and dry before we could separate the hill run off from the main spring. We did this to insure the purity of the spring from a seasonal burn that runs down past the house and traverses on though our garden before exiting in to the field.

In the spring of 2019 we built a beautiful Well around the spring to honour this amazing source of water.

We believe that the huge stone the channels the water from the Well is the original ancient Well stone. You can see the scalloped water marks at the end of it. We found this stone a few meters from the spring before we created the new well.

The water has been tested and is perfectly pure, please feel free to fill up bottles and drink as much pure Scottish spring water as you wish.

The water coming out of your tap is mains water not spring water.

## **Walks from Stella**

Above the carpark is Rose Cottage Field which is co-owned by our family. You can access Dull woods by passing through the field, around the chicken coup and in to the woods. Once in the woods you take the path to the top of the pine trees. When you get to the top and in to the clearing, you can go right along a path that follows all the way along the edge of the field and spits you out through a series of gates. After the second gate you have the option to turn left towards Camserney or Right towards Dull. If you go towards Dull you can continue through a third gate and pass through the whole village and eventually back up our steep drive home to Stella

If you decided to go left after the second gate you can walk to the pretty village of Camserney. Once you get there turn right through the village and right again on the main road. After the community gardens on your right and the wee bridge there is a foot path that will take you safely to the turn off to the village of Dull. Why not stop off at the Highland safari park for a coffee on your way back. They serve light lunch and offer lots of excursions around the local area. Including a boat trip on Loch Tay.

If you fancy a much longer adventure then turn left at the top of Dull woods. You then walk along for some time before turning right and winding up and up along a forest road through the forestry commission forest. If you persevere you reach Dull lookout point and have a staggering view across the valley and in to Loch Tay. Its directly above our property ..

## The Story of Stella

Stella was birthed as an idea with the click of a button on boxing day 2017. An eBay love affair. She was brought off the Airstream factory line by a Canadian family in 1973. She stayed in the same family till 2017. She arrived to her new home in January 2018 in the snow.

### **HighlandSpaces HotTub disclaimer;**

1. Always keep the hot tub covered when not in use. This will conserve energy and more importantly prevent animals and young children from falling/climbing in. It will also help prevent dirt and debris from getting in. Always drain any standing water from the cover.
2. If your hair is long, put it up in a ponytail or bun to avoid getting it caught in the filter or drain.
3. The temperature is set @ 38 Celsius degrees = 100 Fahrenheit, please don't play with the temperature control, note; If you increase the temperature Make sure the hot tub is at the appropriate temperature, taking in to consideration the people

who will be using it. Children should never be in a hot tub if the water is warmer than bathwater (about 90 Fahrenheit = 33 Celsius degrees). For adults, maintain the water temperature below 104 Fahrenheit = 40 Celsius degrees.

4. Avoid drinking alcohol or using drugs in the hot tub. The hot water will amplify and speed the effects of any alcohol or drugs. Alcohol makes you drowsy, and falling asleep in hot water can be very dangerous. In addition to the risk of drowning, your body cannot regulate its temperature as well when you are asleep, which can lead to dangerous overheating.

5. Similarly, avoid using the hot tub when overly tired, or at least have a more alert person join you to wake you up.

6. Never use electrical devices (including phones, radios, TVs or any other corded device) in or near the hot tub. If you must have one nearby, use a battery-powered device and place it on a table a safe distance from the water. Be sure all electrical outlets are a safe distance from the hot tub as well, in keeping with local building codes. Corded devices and outlets present a real risk of electrocution if they get wet!

7. Always shower with soap and water before and after using a hot tub. . Please remove facial foundations and fake tan before using the hot tub. Failure to do so will cause the hot tub to change colour and can result in an alteration in Ph. Showering before will prevent lotions and skin oils from gunking up the filter and prevent bacteria from entering the pool, and showering after will help remove any chemicals or bacteria that linger on your skin, preventing rashes and infection

8. Be cautious when using the hot tub during the winter. If the temperature outside the hot tub is below freezing, water

splashed over the edge can quickly freeze into slippery ice. Be careful when exiting the hottub

9. Your reservation is confirmed when the booking fee has been received. The booking contract is between the client/Hirer and HighlandSpaces. Once the client/ Hirer enters into this agreement with HighlandSpaces they also agree to the hot tub disclaimer terms and conditions.

Use your common sense and enjoy!

**I the client/hirer agree to the disclaimer**
